

EROAD

How EROAD's telematics data can drive your fleet's performance

1
Helps drivers make safer decisions on the road with notifications on speeding, harsh braking, cornering and sharp acceleration

2
Enhances your safety culture

3
Increases driver accountability

4
Reduces vehicle downtime

5
Proactively manages maintenance and vehicle defects

6
Helps save on fuel, brakes and equipment

7
Monitors the performance of each driver and vehicle

8
Facilitates better driving choices

9
Rewards good driving habits

10
Provides live coaching and feedback

11
Keeps track of driving hours and location with EROAD's electronic logbook

12
Can lower ACC and Insurance premiums and excess

13
Lowers risk of non-compliance with rest and fatigue rules
