

EROAD STAR

Switched On Building Solutions

Managing the RUC licences for 70 vehicles used to be a nightmare. We now use EROAD's AutoRUC, which I love. It's a fantastic tool – it's just so simple.

Knowing where my guys are is great as we get a lot of urgent jobs, and need to quickly send the most appropriate person and vehicle. For the amount it costs, I don't understand why companies wouldn't have it in their fleet vehicles.
