Easy As

It's human nature not to check whether you're up to date with RUC, and that includes me! That's why AutoRUC is a no brainer for us. We have 10 vehicles with AutoRUC set at 2000km each. It's by far the easiest option for us.

It means our admin lady doesn't need to worry about it and we can avoid trips to the Post Office to buy licences.
