

EROAD RUC Star

Big Data

“Being able to track the location of our fleet and auto-purchase our RUC while we’re out and about has been great. However, the biggest gain and ultimate goal for us is the data we are capturing.

“Already, we have significantly reduced our truck idle times and speeding events and we are just scratching the surface. A lot of the data we capture will be used in our pending Driver Recognition Program.”

David Snell
IT Manager, Move Logistics

RUC STAR: Move Logistics

INDUSTRY: Logistics - container cartage and warehousing
