

**EROAD**  **RUC Star**  
*All embracing*

“EROAD’s reporting has been very beneficial for us. It’s a good behavioural feedback tool, helping our drivers to be even better operators. It’s helped with speed awareness especially around reduced speed zones and it’s cut idling time -with the aim of not only reducing unnecessary fuel burning but also engine wear and tear.

**RUC STAR:** Mondiale Freight Services

“Off-road RUC claims are much simpler and more accurate than the manual process, as is buying RUC using the Auto RUC function.

**INDUSTRY:** Container transport

“We’re also finding ge fences valuable for managing truck time spent at different sites - assisting with planning and reducing potential wasted time on site due to factors like peak hour congestion.

“It’s not just one thing, though. The EROAD system is a complete package for us.”

**Robert Zijp**  
Transport Manager, Mondiale Freight Services
