EROAD ⭐ RUC Star
Easy Road

I first started using the EROAD system for compliance. I've watched it develop to where it is now and really do use every feature – fuel reporting, driver behaviour, servicing, offroads and all fleet reporting. It's easy to use and the information it gives us is fantastic.

We're relying on it more and more now to meet health and safety obligations.

Carl Drew,
Transport Manager
Transport South Island Logistics

RUC STAR: Transport South Island Logistics

INDUSTRY: Logistics

PRODUCT: EZfuel, Service module, fleet reports
