

# EROAD ★ RUC Star

*Spring Cleaning*

We're seeing major time and cost savings through automating our RUC purchasing. It means our admin staff are no longer disrupted from their job or having to waste time standing in line at the Post Shop. It's less stressful for our drivers because they don't have to worry that their licences will be affected if they're stopped when their RUC has expired. And there's no risk to the company's NZTA rating because we're always compliant.
