

EROAD TRUCK STAR

Houstons

We distribute wholesale restaurant and bar supplies nationwide. We've been using the EROAD system for two years. It's a customer-friendly, wonderful service tool – once we had it in place we knew how essential it was.

It's helped us improve service to our own customers. The accurate vehicle location data means we can tell them exactly when their deliveries will be.

It's also taken a big load off with our IFTA and weight mile tax (WMT) reporting – we were doing it manually before and it was a lot of work.
